REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

It is noted that Wagner et al. (5762244) and Miller et al. (4249684) each teaches a container with a lever inside the container and a clamp device. However, Miller fails to teach the clamp device a stationary upper portion and the limitation wherein the pivoting bottom portion moves toward the stationary upper portion. It is noted that the clamp device in Wagner fails to meet the limitation that the device mounted under the floor. The clamp 48 is mounted at 50 above the floor.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
